THERMAL & ACOUSTICAL SOLUTIONS FOR INDOOR POOLS

CAMPO DE OURIQUE MUNICIPAL POOL - LISBON, PORTUGAL | SonaSpray "fc" LIGHT GRAY | 1-1/4" Thick

WINDSOR HIGH SCHOOL - WINDSOR, COLORADO, USA | SonaSpray "fc" Arctic White | 14,800 sf - 3/4" Thick

NATIONAL SWIMMING TEAM TRAINING CENTER - BEIJING, CHINA | SonaSpray "fc" White | 18,000 sf - 3/4" Thick

Indoor pools present a unique acoustic problem. The hard surfaces and large open areas that are often present in these projects reflect sound causing noisy reverberation. Additionally, condensation can be a concern for many acoustical treatments.

CLASS A, CLASS 1

International Cellulose Corporation manufactures Class A, Class 1 Fire-Rated thermal and acoustical treatments in varying finishes to combat noise present in Indoor Pools. With the proper air exchanges in place, these finishes can also aid in condensation control.

CUSTOM COLORS

Our cellulose-based exposed finishes are spray-applied and conform to virtually any properly prepared substrate. They are the perfect solution for curved ceilings, metal decking, or other complex configurations. We also offer custom colors to meet your design goals.

SUSTAINABLE

Additionally, our products are sustainable. We manufacture our finishes from 80% recycled material and may contribute to satisfying credits under the LEED® green building program. Our products are UL GREENGUARD Gold certified.

EXPERIENCE

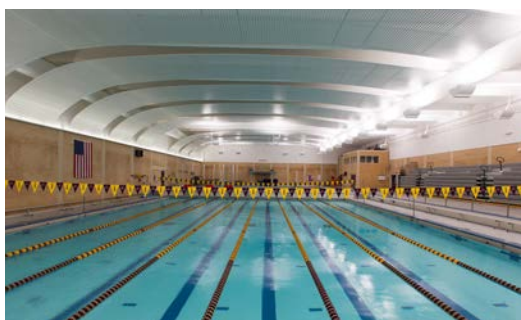

With over 60 years in the industry, the indoor pool projects highlighted in this brochure are just a small example of the many types of projects that have benefited from the acoustical and thermal finishes offered by International Cellulose. No matter what your design requirements and budget constraints are, for new construction or renovation, our products can be customized to help you create the ideal space.

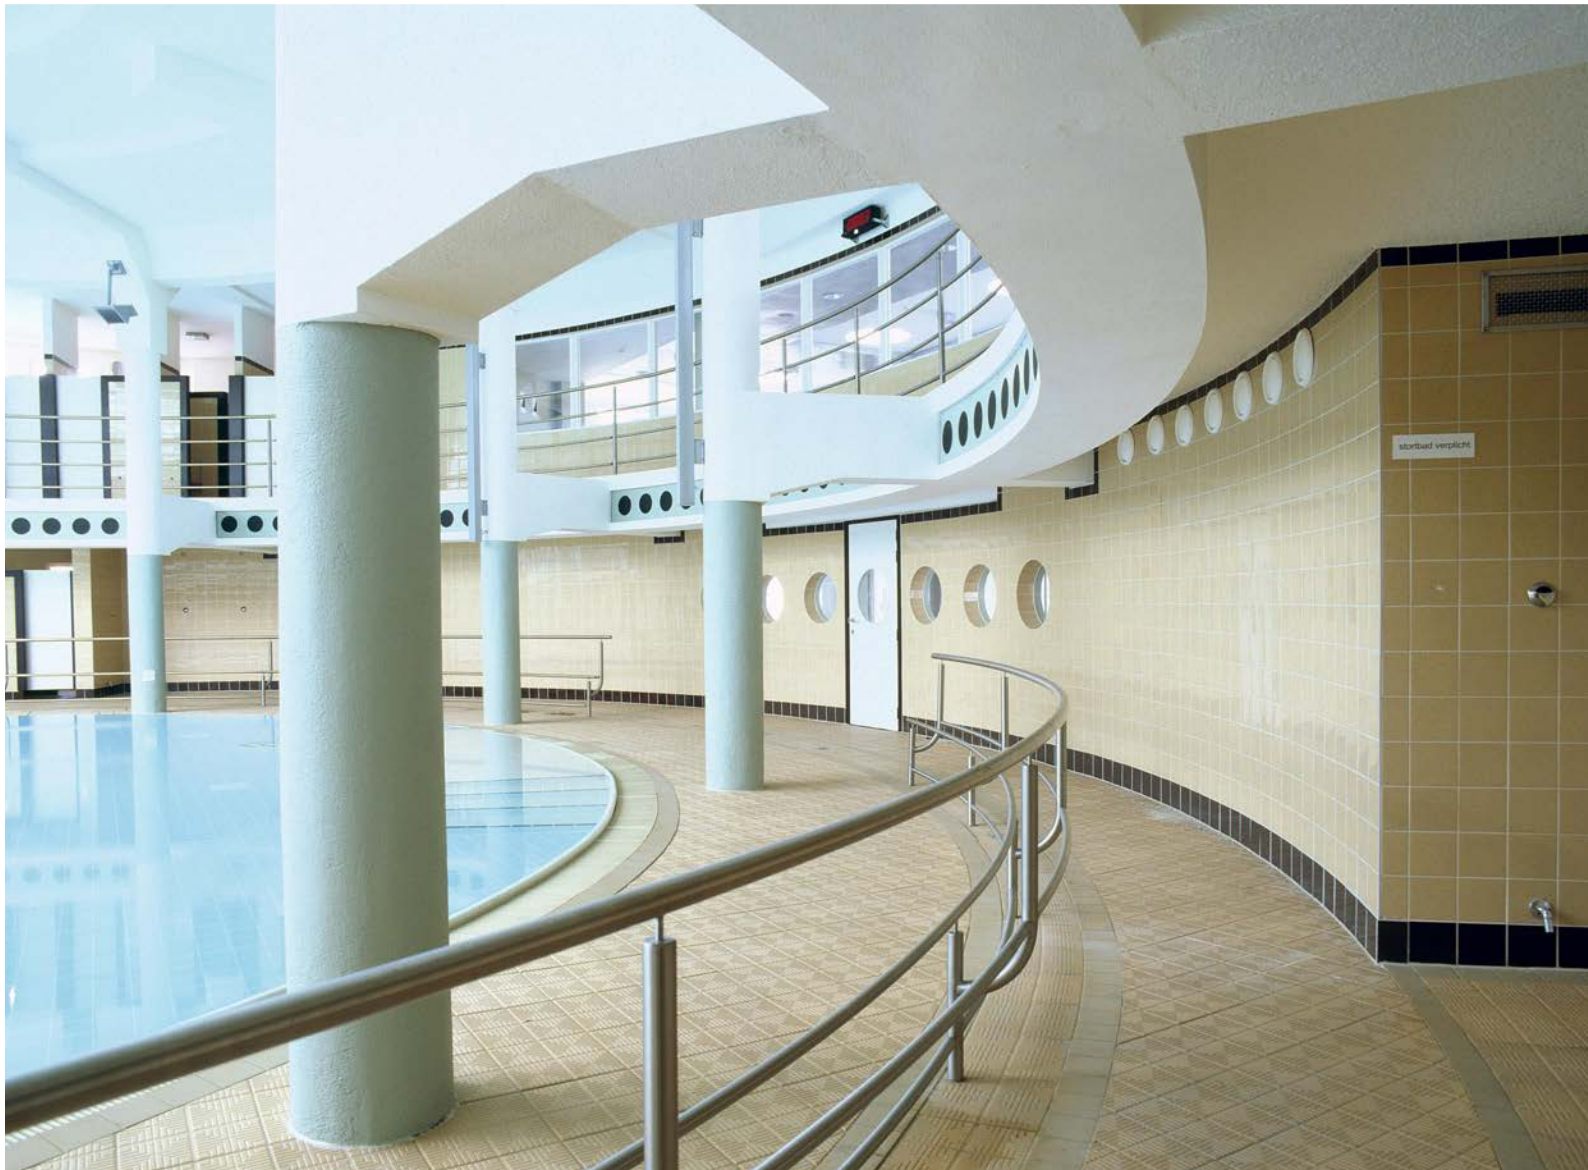

VAN EIJCK - GENT, BELGIUM | SonaSpray "fc" Arctic White | 20,500 sf - 3/4" Thick

CLUB VODA AQUA CLUB - KIEV, UKRAINE | K-13 Black | 31,000 sf - 1" Thick
